

Smart Manufacturing

VERPACK INDUSTRY MODERNIZATION

The investment project of the company “KOSMAS APOSTOLIDIS & SONS O.E. – VERPACK”, implemented under the “SMART MANUFACTURING” action of the Recovery and Resilience Facility, with a total budget of 611,247.46€, includes:

1. Supply – transportation – installation of modern production equipment:
 - Slitter Rewinder RB2-1400 for cutting and rewinding flexible packaging rolls.
 - AMD 1000 W/H Automatic Hot Stamping and Rewinding Machine.
 - SKB600-SNT Automatic Packaging Bag Making Machine.
 - AMD450CW Automatic Coffee Valve Application Machine.
 - Electric narrow-aisle forklift truck and diesel-powered forklift truck for warehouse management and internal material handling.

2. Development of digital infrastructure and smart manufacturing systems:
 - Installation of production and warehouse management applications (ERP / WMS).
 - Installation of barcode systems and handheld terminals.
 - Supply and installation of IT infrastructure and information systems.

The investment aims to enhance production capacity, improve product quality, and support the company’s digital transformation through Industry 4.0 technologies.

The investment is implemented within the framework of the National Recovery and Resilience Plan “Greece 2.0”, funded by the European Union – NextGenerationEU.
